

Thursday, Sept. 30.

If Dr. Torrey will have the kind
ness to furnish us with copy, we
are ready to commence the *Plautae*
Fremontiae, in accordance with in-
structions from Prof. Baird. We have
no Ph. L. copy remaining, and only about
two pages of the old proof, breaking
off in the middle of the description
of the *Spraguea umbellata*.
